

## Newsletter from the Commander of the SAL.

6/7/03

This is the first newsletter of the 2003, year. The SAL has remained busy throughout the 2002-2003 year, and we continue to push forward with projects to help make the Post 47 American Legion a premier post for both members and their guests.

Projects that are in the process of being completed consist of, installing horseshoe pits, installing a volleyball court, and cleaning up of the exterior grounds.

The biggest project we are in collaboration with the legion and the auxiliary is the purchase and installation of a Gazebo. We installed the Gazebo in a beautiful setting with the backdrop of the Salmon Falls River.

According to Steve Dore, our marketing manager, the requests for outdoor weddings within the Gazebo are picking up at a great pace. The first wedding will be this month. Along with the Gazebo, the SAL will be renting out chairs for the ceremony.

The SAL has just completed the most successful raffle to date, with a great Canoe package, which was won by William Waterman of Alton, NH. Congratulations to William, and thank you to all who helped to make the raffle such a success.

The SAL will continue to work on future projects, with the help of the input from any and all ideas brought to us from our members. Before closing, I would like to remind all members, the annual convention is close, and I would urge anyone interested in attending, please see any officer for information.

We will update this newsletter soon. Stay safe, and enjoy the summer.

Joe Bernier

Commander of the Sons of the American Legion, Post 47
